Report No. SAT-00721

Friday September 24, 2010

## POLICY BRANCH INFORMATION

### Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

**SAT-AMD-20100831-00186**      E S2809      ViaSat, Inc.

Date Filed: 08/31/2010 16:22:34:46000  
Amendment

ViaSat, Inc. filed an amendment to its pending application to launch and operate a Ka-band satellite at the 88.9° W.L. orbital location (SAT-LOA-20100217-00029 and SAT-AMD-20100602-00120). ViaSat seeks to add the 18.8-19.3 GHz frequency band on a non-conforming basis, and the 28.6-29.1 GHz frequency band on a secondary basis. ViaSat requests a waiver of Section 2.106, Footnote NG165 to the United States Table of Frequency Allocations.

---

**SAT-MOD-20100714-00158**      E S2747      ViaSat, Inc.

Date Filed: 07/14/2010 20:11:17:16600  
Modification

ViaSat, Inc. seeks to modify the authorization for its Ka-band GSO space station at the 115.1° W.L. orbital location by "swapping" the launch milestone for this satellite with the launch milestone in its space station authorization for a Ka-band GSO space station at the 77.3° W.L. orbital location (Call Sign S2737). ViaSat proposes to launch the space station to 115.1° W.L. by July 18, 2012, instead of August 18, 2014. ViaSat states both space stations (Call Sign S2747 and Call Sign S2737) will be launched within the time frame specified by the Commission, but in reverse order. See SAT-MOD-20100714-00159.

**SAT-MOD-20100714-00159**      E    S2737      ViaSat, Inc.  
Date Filed: 07/14/2010 20:12:31:55600  
Modification

ViaSat, Inc. seeks to modify the authorization for its Ka-band GSO space station at the 77.3° W.L. orbital location by "swapping" the commence physical construction and launch milestones for this satellite with the commence physical construction and launch milestones for its Ka-band GSO space station at the 115.1° W.L. orbital location (Call Sign S2747). ViaSat proposes to commence physical construction of the space station at 77.3° W.L. by August 18, 2012, instead of July 18, 2010, and to launch the satellite by June 1, 2014, instead of July 18, 2012. ViaSat states both space stations (Call Sign S2747 and Call Sign S2737) will be launched within the time frame specified by the Commission, but in reverse order. Alternatively, ViaSat seeks a limited waiver or extension of the two remaining milestones for the 77.3° W.L. space station authorization. See SAT-MOD-20100714-00158.

---

**SAT-STA-20100907-00190**      E      Sirius XM Radio Inc.  
Date Filed: 09/07/2010 10:46:34:48600  
Special Temporary Authority

Sirius XM Radio Inc. requests special temporary authority to continue to operate, for a period of 180 days, very low power terrestrial repeaters (less than 10 watts EIRP) and signal boosters (less than 0.0001 watts EIRP) within the 2320-2345 MHz frequency band allocated for Satellite Digital Audio Radio Service (SDARS) at various venues, locations, and dates that cannot yet be identified, pursuant to the technical parameters and conditions listed in previous grants of special temporary authority. See IBFS File Nos. SAT-STA-20081205-00222; SAT-STA-20090910-00096, SAT-STA-20100303-00039.
